

Climate Change - How should we respond?

Climate change provokes intense debate and discussion all around the world, with a whole range of opinions over its priority and what action should be taken.

Dave Gobbett, author and pastor of Highfields Church Cardiff, will help us to think about the key issues surrounding the environment and climate change from a Christian perspective.

Come along to see how the Bible can give us a practical understanding of how to take care of the world we share.

Everyone is welcome to join.
